# Your Choice Components

At Aqualla, we know that every single one of our customers is unique, and this extends to their choice of shower.

That's why with the Your Choice range, you design your own shower package; exactly how you want it.

Simply follow the steps below:

- Select your valve style
- Choose 1, 2 or 3 outlets depending on how many water functions there are
- Select your shower head and arm
- Select a slide rail kit, or a wall outlet and handset holder kit

Please note that dual flow shower heads need a shower valve with at least 2 outlets. If you choose to add a separate accessory such as a slide rail kit, you'll require a shower valve with 3 outlets.
